MUST OBTAIN TRUCK LICENSES

(TIMES BUREAU AT STATE CAPITAL)
INDIANAPOLIS, IND., April 23.—The employing of tractors as motive power to haul trailers over the public highways has been called to the attention of the attorney general's department. As the 1919 vehicle license act exempts "traction engines"

from license fees the owners of these tractors did not obtain licenses. The attorney general has held, however, that whenever the tractors are used as motive power truck licenses must be obtained and likewise the trailers must have licenses.

ADVERTISING FOR HAMMOND AND GARY

Selected as two of the three cities of the United States to be named directly, Hammond and Gary are getting a lot of free publicity through the "Northwestern Reporter," a legal publication which is put out by the West Reporting Co. Every court and practically lawyer of the United States refers to the Northwestern Reporter studiously. In "touting its own horn" on the cover page, the publication refers to the thorough method in which it covers cases in Massachusetts, New York, Illinois, Ohio and Indiana courts.

These four states, it says, contain 25 per cent of the population, 32 per cent of the wealth and 42 per cent of the total manufacturers of the nation. Then it adds that in these states are the great meat packing industries of Chicago, the steel plants of Gary and Hammond and the shoe and cloth manufacturers of Massachusetts. Decisions from courts in these five states it is said, are cited more frequently by outside courts than those of any other group.

Your Word is Law

We think every article we put up for sale is A-No. 1 in quality.

But, if for any reason it fails, we urge that you bring it at once to our attention.

If it doesn't meet your standards, it won't meet ours.

And incidentally it's a whopping big concern that backs the tires we sell, and both make good. That's why we sell Firestone.
